

Emory University Hospital Midtown

Located in the Midtown area of Atlanta, Emory University Hospital Midtown is one of the largest and most comprehensive health care systems in Georgia.

HighGrove Partners designed and installed eight phases of landscape improvements on the hospital campus over a two-year period in 2001. In addition, HighGrove has maintained the grounds since 2002.

“At Emory University Hospital Midtown , we strive to provide our patients with a peaceful environment to care for themselves and their loved ones. The landscaping services provided by HighGrove Partners furthers this mission and welcomes patients from the moment they arrive on our campus.”
