

Fairgreen Development approached HighGrove Partners to create the identity and theme for the community as well as make revisions to the master plan. Via idea boards, which demonstrated the look and feel of what proposed, HG developed the front entry monument and other signage, designed, and installed the landscaping at the entry and amenity center. The amenity area included a tennis center, basketball court, and playground. A children's adventure park is located behind the playground. The Great Sky Water Park has 3 pools, 1 Junior Olympic, 1 with beach entry, a water tower and splash pool, a water umbrella, and a reflecting pool.
