

# Morehouse College

HighGrove Partners has employed a full-time gardener and crew to oversee the grounds maintenance operations at Morehouse College, the nation's largest liberal arts college for men located in Atlanta, Georgia. Morehouse College is visited annually by thousands of guests and hosts several large outdoor events throughout the year.

“As a prominent college that has had a tradition of preparing young men to be exemplary models of leadership and citizenship since 1867, Morehouse

College has taken great care in the appearance of our 80-acre campus. We are frequented by visitors year-round and we encourage prospective students to participate in guided walking tours of our campus. For the past five years, HighGrove Partners has played an integral role in maintaining a beautiful and meticulous landscape that provides a warm and welcoming atmosphere to our guests.”
