

The Medici

Located in the Piazza at Paces, a mixed-use, European-style development, The Medici is a six-story, 160,000 sf mid-rise office building. HighGrove Partners was hired to design a roof-top garden of relaxing and lush space for tenants to enjoy. The final installation consisted of park benches, planters, a central turf area and a wide selection of bright, eye-catching plants and trees.

“Ronus Properties, LLC, the developer and manager of The Medici at Piazza at Paces, is proud that PLANET has presented HighGrove Partners with a Distinction Award for the rooftop garden. The rooftop garden is an integral feature of the building and its future companion, so its design and implementation were critical to the success of the building. In no small part because of HighGrove Partner’s garden design, we were able to open 95% occupied.”
